1. It was marked in ancient maps as Langka, Langa, Lansura and Langapura.
2. The name means reddish-brown eagle in colloquial Malaysia. There's a breath-taking landmark sculpture of an eagle at Dataran Lang (Dataran Lang) which makes for a great instagrammable moment.
3. Some believe Langkawi means "many beautiful islands" in Sanskrit.
4. There was speculation of the island's link to an old kingdom in Kedah known as Langkasuka.
5. The French general once travelled to the island to purchase pepper, recording it as "Lancahui".

Within the 47,848 hectares of land in Langkawi, established as the oldest landmass in Malaysia, are found more than 38 geosites of outstanding value that require protection. Currently, only three geoforest parks and a biogeotrail have been fully developed, namely Machinchang Cambrian Geoforest Park, Kilim Karst Geoforest Park, Dayang Bunting Marble Geoforest Park. These Geoparks and Kubang Badak BioTrail are designated to promote not only geological heritage, but also biological heritage and cultural heritage, which are very crucial for maintaining a healthy and sustainable environment. Nature's treasures takes you on a tour of natural wonders and artifacts from a bygone era.
